

Say Goodbye to Household Lead in **Your Water.**

Household Lead: The Facts

Lead in drinking water accounts for 10-20% of human exposure. Major sources of lead in your drinking water can be found in your home's plumbing system. **Lead can leach into your water from pipes, solder, and faucets.**

High Blood Pressure

Lead can increase the risk of high blood pressure.

Kidney Damage

Lead can increase the risk of kidney damage.

Bone Damage

Lead can increase the risk of bone damage.

Risk to Pregnant Mothers

Lead can be a potentially fatal risk to pregnant mothers.

Homes built prior to 1986 may have 20% or more lead in their plumbing system. **Lead can be found in newer homes as well. Until June 2014, the legal limit for "lead-free" pipes was up to 8%.**

Source: United States Environmental Protection Agency (EPA)

Our **MT1250XL** and **MT3K-HF** Filters are independently tested and certified by NSF International against NSF/ANSI Standard 42 and 53 for the reduction of chlorine (Standard No. 42) and lead (Standard No. 53).

Our **MT6K-HF** Filter's Chlorine & Lead reduction capacities are based on laboratory testing conducted using test protocols contained in NSF standards 42 and 53 respectively.

Enhance Your Mountain Pure®

Pair your Mountain Pure® filtration system with these high performance water appliances to create the ultimate filtered water experience in your home.

Little Gourmet
Premium Hot Water Dispenser

- Boil Water Faster
- Instant Water for Tea & Coffee
- Clean Stubborn Stuck-on Messes from Dishes & Utensils
- Warm Baby Food & Bottles
- Loosen Jar Lids
- Make Hot Compress for First Aid

MT641-3

Specifications

Stainless Steel Housing, Inlet, Heating Coil, & Tank	Uses Less Energy Than a 40W Light Bulb
Sensor Prevents Dry Start-Up	2.5 Quart Tank
Provides 190° Water Instantly	7 3/4" W x 12" H x 8" D
1300w Water Heating Power	3 Year Warranty

mountain chill
WATER CHILLER

- Instant Cold Water for the Ultimate Refreshment
- Pair with Mountain Pure® Filtration for the Ultimate Water Cooler Replacement . . . No More Heavy Bottles

MT670-2

Specifications

Cools Your Water to Between 41° and 50°	Large 1/2 Gallon Stainless Steel Storage Tank
Chills up to 3 Gallons Per Hour	Attaches to Accessory Faucet
Lead Free	16" W x 10 1/8" H x 11 3/4" D
C-UL-US, CE, CB Certification	3 Year Compressor Warranty

Mountain Pure®
Water Filtration

MOUNTAINPURE®
WATER FILTER SYSTEM

www.mountainplumbing.com

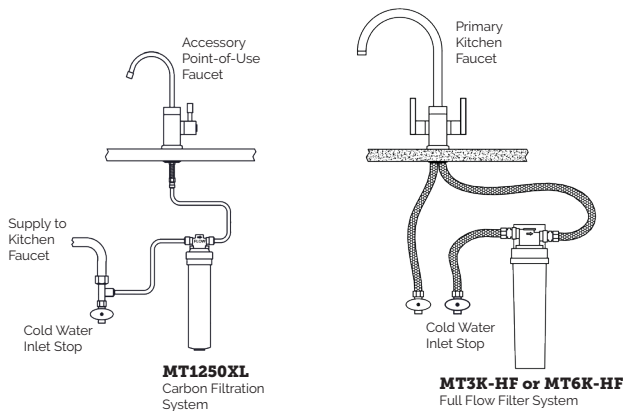

The Mountain Pure® filtration system utilizes a carbon filter cartridge that incorporates powder activated carbon and a bacteriostatic agent that protects it from bacterial growth. The quarter turn valve built into the head unit allows for easy replacement without the unwelcome mess usually associated with changing out filter cartridges.

Meets or Exceeds NSF Standards for Removing Impurities:

Lead	Iron
Sediment	Molds
VOC	Trihalomethanes
Pesticides	Pathogenic Bacteria
Hydrogen Sulfide	Asbestos Fibers
Aluminum Chlorine	Rust
Algae	Suspended Solids
Turbidity	Sub-micron Asbestos
Pathogenic Cysts	MTBE
Foul Odors & Tastes	

0.5 Micron Particulate Reduction

How the Filters Connect to Your Point-of-Use & Primary Kitchen Faucet

Point-of-Use Water Filtration

Connects to your accessory faucet and other high performance water appliances to deliver fresh, purely filtered water to your home.

Mountain Pure® Point-of-Use Carbon Filtration System

MT1250XL

- 1,250 gallon capacity - lasts 1 year based on average usage
- Removes 99.9% of particles over 0.5 microns
- Removes harmful household lead from your water
- Anti-microbial agent reduces bacteria
- Operates without wasting water like reverse osmosis filters

The MT1250XL connects to the following accessory faucets from Mountain Plumbing's Francis Anthony Collection

Full Flow Water Filtration

Connects directly to your kitchen faucet to deliver the delicious taste of Mountain Pure® filtered water.

Mountain Pure® 3,000 Gallon Full Flow Filter System

MT3K-HF

- 3,000 gallon capacity
- No additional faucet required
- Built-in shut-off valve makes filter changes easier
- Retains vital minerals in water to ensure health and delicious taste of your water

Mountain Pure® 6,000 Gallon Full Flow Filter System

MT6K-HF

- 6,000 gallon capacity
- No additional faucet required
- Built-in shut-off valve makes filter changes easier
- Retains vital minerals in water to ensure health and delicious taste of your water
